

RCEDC Celebrates Successful 2017 Projects at Annual Meeting

During 2017, RCEDC secured 22 company expansion and recruitment projects that, when fully accomplished, will result in new tax revenue for Racine County and employment opportunities for its residents. These successes were accomplished with the assistance of nearly \$275 million in grants and incentives and \$10 million in low-interest loans from RCEDC's finance division, Business Lending Partners (BLP).
